The UN Principles for Responsible Investment - known as UN PRI - can have a huge impact on investor decision making and ESG factors. Here, Minimum discusses UN PRI and its application across organizations.

What is the UN PRI?

The United Nations Principles for Responsible Investment (UN PRI) is a set of global principles and a network of international investors working together to incorporate environmental, social, and governance (ESG) factors into their investment practices. UN PRI

Principles for Responsible Investment

Article Talk

Principles for Responsible Investment (**UNPRI** or **PRI**)[1] is a United Nations-supported international network of financial institutions working together to implement its six aspirational principles, often referenced as "the Principles".[1] Its goal is to understand the implications of sustainability for investors and support signatories to facilitate incorporating these issues into their investment decision-making and ownership practices. In implementing these principles, signatories contribute to the development of a more sustainable global financial system.

About the PRI

In early 2005, the then UN Secretary-General, Kofi Annan, invited a group of the world's largest institutional investors to join a process to develop the Principles for Responsible Investment. A 20-person investor group drawn from institutions in 12 countries was supported by a 70-person group of experts from the investment industry, intergovernmental organisations and civil society. The Principles were launched in April 2006 at the New York Stock Exchange.

The Principles were incubated by the UNEP Finance Initiative and the UN Global Compact and were developed and launched by a joint Secretariat from both organizations including: James Gifford, Paul Clements Hunt, Georg Kell, Jacob Malthouse, Gordon Hagart, Philip Walker and Gavin Power.

PRI

We can see further momentum in the fact that the Dutch Central Bank will become a PRI signatory tomorrow on 26 March 2019 – making it the first central bank in the world to do so. Through its membership, it will collaborate on global responsible investment and spread the word for more central banks to join the PRI.

The elite created/spread antisemitic conspiracy theories and how the elite increase believers in them and increase antisemitism by funding zionism and antizionism:

The elite who are christian zionists, and therefore don't care about Jews and only want to use Israel for there own gain, use Jews to fake they are Jews therefore they are the synagogue of Satan:

The Yahweh(YHWH) and Asherah of the Israelites is different to the Yahweh(YHWH) of the current day religions Judaism and Christianity because the elite created the religion Judaism, and replaced the original Yahweh(YHWH) with a satanic one that was a merger of other gods, to control the Israelites; Jesus knew this and called the original Yahweh(YHWH) his father but the elite later corrupted the teachings of Jesus to create Christianity. The elite then deported and enslaved many of the Israelites to control the population which is how the Israelites ended up in Europe and became the Jews; The elite commit mascaras, slaughters and genocide to control the population of the Jews. The elite (helped) create, share and spread antisemitic conspiracy theories and lies and then denounce them which increases antisemitism and antizionism and the believers in them. The increase in antisemitism drove Jews into jobs the elite wanted them in so they could control them. The Jews are just some of the front people and aren't the people who are actually in power.

The freemasons believe/support Israelism, which is the belief that other races are descendants of the "10 lost tribes", some forms of Israelism, such as British Israelism, say the royal families are descendants of the "10 lost tribes".

Which boosts the antisemitic conspiracy theory that Jews control the world

The US (and other countries) fund/support Israel/Zionism BUT fund/support the UNs antizionism/antisemitism:

Funding both sides increases antisemitism.

The UN is always targeting, condemning and making resolutions on Israel and Zionism. One example is UN resolution 3379 "Zionism is racism"; Even though the resolution was revoked in 1991, the UN backed a conference which stated "Zionism is racism", in 2001, and at that conference the "Eldars of Zion" was sold. The "Eldars of Zion" and the "Khazarian hypothesis" are the basis for the "Khazarian mafia" conspiracy theory.

Which is the foundation of BHI.

The Khazarian hypothesis is boosted by the "Black Hebrew Israelites" cult which was founded by two freemasons, one of them an extreme racist who said white Jews aren't real Jews and Jesus will come back and start a race war(A war the elite are apparently causing).

And which is also used to say current day Jews aren't the real Jews.

The Khazarian hypothesis was boosted by the book "The Thirteenth Tribe" which was written by Arthur Koestler who worked for and was funded by the IRD, a branch of the British government, which was created to spread disinformation and fake news.

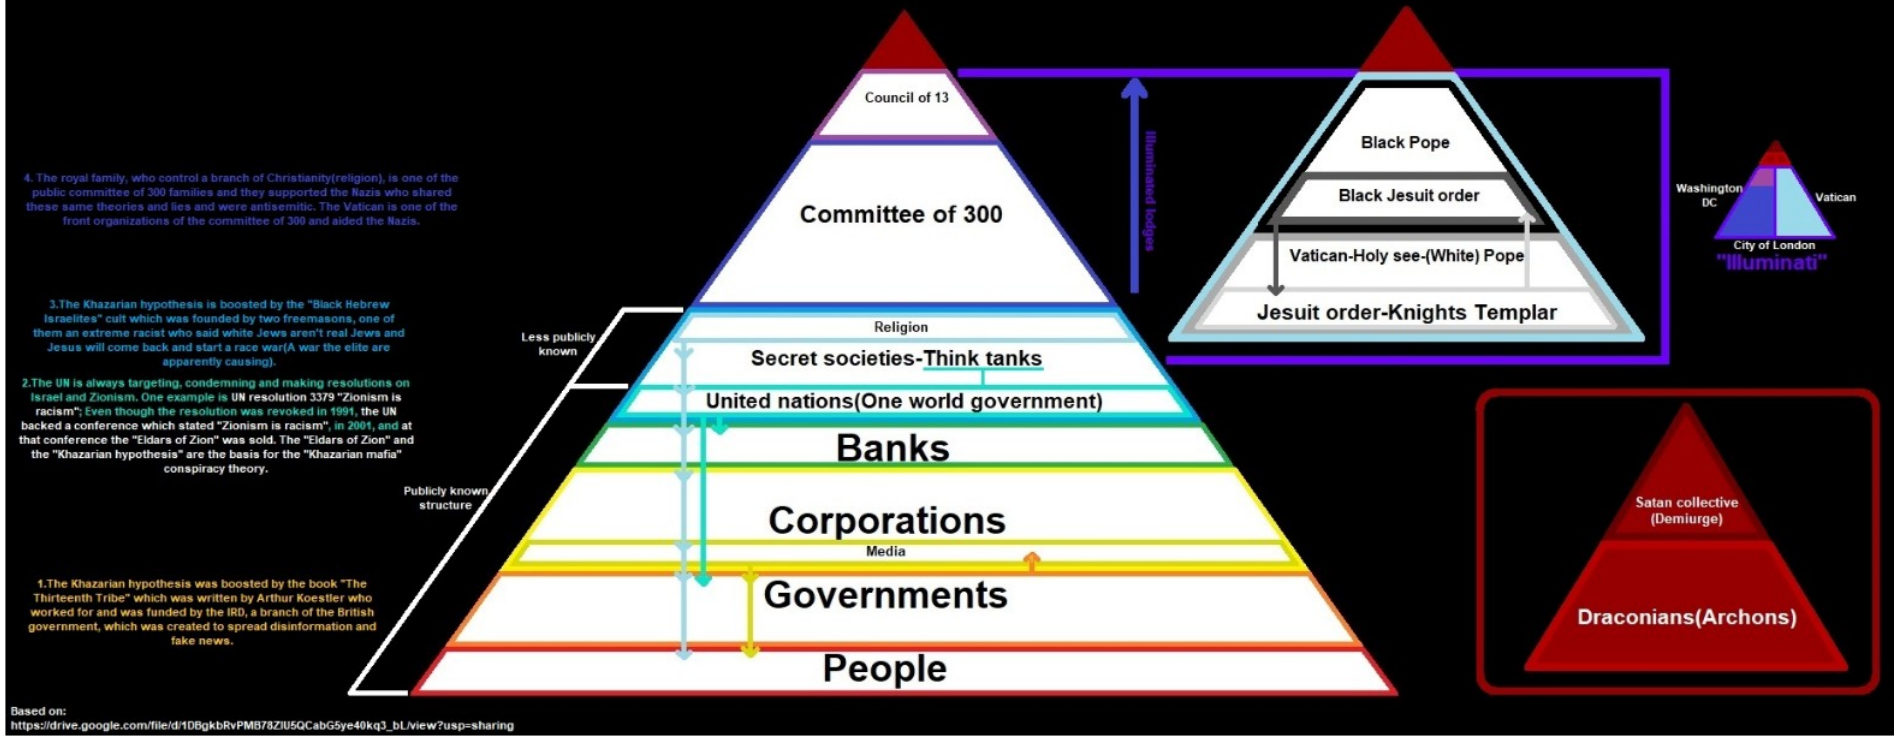
The antisemitic antizionist elite.

The facts that "truth seekers" and "activists" never share and talk about because they share antisemitic conspiracy theories and lies. The elite (helped) create, share and spread these antisemitic conspiracy theories and lies and then denounce them which increases antisemitism and antizionism and the believers in them. The increase in antisemitism drove Jews into jobs the elite wanted them in so they could control them. The Jews are just some of the front people and aren't the people who are actually in power. As you go up the pyramid, from points 1 to 4, the antisemitism gets worse and worse.



4. The royal family, who control a branch of Christianity(religion), is one of the public committee of 300 families and they supported the Nazis who shared these same theories and lies and were antisemitic. The Vatican is one of the front organizations of the committee of 300 and aided the Nazis.
